October 1, 2012

Waste Haulers:

The Trimble County Fiscal Court has enacted ordinances requiring that all commercial waste haulers, either picking up or discharging waste in Trimble County be issued permits to transport such waste. Enclosed you will find an application for said permit.

In order to obtain a solid waste permit in Trimble County a company must meet certain insurance requirements that have been established in our Solid Waste Ordinance. It is stated in the ordinance that any person engaged in the collection and transport of solid waste must carry liability insurance with limits of not less than \$300,000 per occurrence and to include in this coverage \$100,000 to clean up any spills. There is a space on the application to indicate you have such coverage. Please furnish a copy of the policy at time of application for permit.

You may mail your application along with proof of insurance and payment to the address listed above or you may come to the office of the Solid Waste Management Office in person. Office hours may vary so please call to make an appointment. If you have any questions please do not hesitate to call.

Permit applications due before December 31, 2012, any truck entering Valley View landfill after January 15, 2013 will be denied access.

Sincerely:

Matt Gossom
Trimble County Solid Waste Coordinator
